

Alcazar, Thank You

Verse 1:

i still remember
when music got into my heart
someone was telling me
there's someone singing
the way things are
i couldn't believe the first moment
that music could sound like you do
i'm paying my tribute for loving
like i do 'cause
knowing you was
knowing me

Chorus:

thank you for the joy that you gave
thank you for (delivering) night and day
thank you for the songs we sing and play
you created history
for all the world
and for me oh-oh
i wanna thank you
for the joy you gave

Verse 2

since i remember was
always a happy new year
no one had ever been
singing the music
so bright and clear

though in every minute
we love you
the future was telling the truth
when dealing was done
all the doubts they were gone
and the winner waves so long

Chorus:

thank you for the joy that you gave
thank you for (delivering) night and day
thank you for the songs we sing and play
you created history
for all the world
and for me oh-oh
i wanna thank you
for the joy you
thank you
for the joy you gave
thank you for the joy that you gave
thank you for (delivering) night and day
thank you for the songs we sing and play
you created history
for all the world
and for me-e-e-e oh-oh
i wanna thank you
for the joy you
thank you for the joy you
thank you for the joy you
