

# Alcazar, Thank You

Verse 1:

i still remember  
when music got into my heart  
someone was telling me  
there's someone singing  
the way things are  
i couldn't believe the first moment  
that music could sound like you do  
i'm paying my tribute for loving  
like i do 'cause  
knowing you was  
knowing me

Chorus:

thank you for the joy that you gave  
thank you for (delivering) night and day  
thank you for the songs we sing and play  
you created history  
for all the world  
and for me oh-oh  
i wanna thank you  
for the joy you gave

Verse 2

since i remember was  
always a happy new year  
no one had ever been  
singing the music  
so bright and clear

though in every minute  
we love you  
the future was telling the truth  
when dealing was done  
all the doubts they were gone  
and the winner waves so long

Chorus:

thank you for the joy that you gave  
thank you for (delivering) night and day  
thank you for the songs we sing and play  
you created history  
for all the world  
and for me oh-oh  
i wanna thank you  
for the joy you  
thank you  
for the joy you gave  
thank you for the joy that you gave  
thank you for (delivering) night and day  
thank you for the songs we sing and play  
you created history  
for all the world  
and for me-e-e-e oh-oh  
i wanna thank you  
for the joy you  
thank you for the joy you  
thank you for the joy you  
gaveeee
