

Alchemist Project feat. Monika Novak, Don't ask me why

I wanna feel you
I'm gonna miss you with all my mind
I wanna kiss you when I burn from inside out
My love - let's forget about tomorrow
Right now I wanna hold you in my arms
My love let's keep away that sorrow
I wanna be with you and don't ask me why
Don't ask me why!
I'm hazy about who I am
It's like looking for a little piece of heaven
Just take me away be my guide
I'm gonna spend my life with you forever
Don't ask me why!
Don't ask me why!
I wanna feel you
I'm gonna miss you with all my mind
I wanna kiss you when I burn from inside out
My love - forget about tomorrow
Right now I wanna hold you in my arms
My love let's keep away that sorrow
I wanna be with you and don't ask me why
Don't ask me why!
Don't ask me why!
Don't ask me why!
