

# Aldo Nova, See The Light

You took to the light  
And they call you a fool, yea  
You think it's alright  
It's all part of the rules, yea  
But don't look away till you've seen the light  
Or they'll get to you, yea  
If you wanna stay  
Then do what you gotta do, yea  
See the light and you will find the answer  
Mornin', night anytime  
If you see the light  
You wanna give up  
'Cause they're gettin' to you, yea  
They say live it up  
And stop bein' a fool, yea

See the light and you will find the answer  
Mornin', night anytime  
See the light and you will find the answer  
Mornin', night anytime  
If you see the light  
See the light and you will find the answer  
Mornin', night anytime  
See the light and you will find the answer  
Mornin', night anytime  
If you see the light and you do it right  
And you shake things up and just get it right  
And don't be a fool, play it cool  
Get it right, see the light, yea
