

# Alesana, Untitled (Early Morning)

Last night I forgot how the sound your voice whispered sweet  
Goodbyes, your eyes left to die  
I'm alone too  
I don't stand why

Why not one more night  
One last kiss good bye  
My sweet love tonight  
I hope the stars still spell out your name where you are...

Kiss my closings eyes  
Help me sleep without you I'm so lost  
Tonight I cry  
Tell me why  
I can't live without your warm embrace

Why not one more night  
One last kiss good bye  
My sweet love tonight  
I hope the stars still spell out your name where you are...

I close my eyes and you are everything I see  
Goodbye

Goodbye to you my love  
I will forget you  
I'll see you soon  
Goodbye my love  
Goodbye to you my love  
I will forget you  
Let me live
