

# Alesha Dixon, Do It Our Way (Play) (feat. Weight

Come on! Hey!  
Yeah, yeah, yeah!  
Heeey!

I used to be so boring  
Staying in bed all morning  
No longer I'm the one whose letting me down  
Now I'm proud and stepping out of my house  
So now I do a little shopping  
Buying little dress I'd be wanting  
Gonna buy it, gonna wear right now  
Whatever makes me happy

Didn't like my photo, i'm loving it now  
I'm looking in my mirror, i'm checking me out  
Finally ready to get up, i'm taking control, hey!  
My ladies let's play

Out all night, yelling, shouting  
Wear that smile, I like what I see  
Always, always  
We're gonna do, do, do it our way  
Feel so hot, lipstick's brighter  
Who, what, where, is rocking with me  
Always, always  
We're gonna do, do, do it our way

My life revolves' around tv  
Easy her to be someone to be me  
Now I know what I want out of life  
It brights colours, so my body can't hide  
And now I wear a little make up  
Taking centre stage here on made-up  
And now i'm doing what I wanted at last  
Whatever makes me happy

Didn't like my photo, i'm loving it now  
I'm looking in my mirror, i'm checking me out  
Finally ready to get up, i'm taking control, hey!

My ladies let's play

Out all night, yelling, shouting  
Wear that smile, I like what I see  
Always, always  
We're gonna do, do, do it our way  
Feel so hot, lipstick's brighter  
Who, what, where, is rocking with me  
Always, always  
We're gonna do, do, do it our way

Throw out the roof  
Live for today, life is a game  
You just gotta play  
Always, always, always  
Lay your hair down  
Do it always  
Life is a game  
Now you just gotta play  
Always, always, always

Out all night, yelling, shouting  
Wear that smile, I like what I see  
Always, always

We're gonna do, do, do it our way  
Feel so hot, lipstick's brighter  
Who, what, where, is rocking with me  
Always, always  
We're gonna do, do, do it our way

Out all night, yelling, shouting  
Wear that smile, I like what I see  
Always, always  
We're gonna do, do, do it our way  
Feel so hot, lipstick's brighter  
Who, what, where, is rocking with me  
Always, always  
We're gonna do, do, do it our way
