

Alewya, Let Go

I been gone for some days
I been gone for some days
Can't be back 'til I'm back and I'm me though
So I bang on my guitar
Make her weep (uh)
Couldn't bury so let God be the leader
Bittersweet like I can or I can't can't
This the dance dance
Fuck it's fucking wit my mental
Where'd I go
Where's my light
Losing sight
What did God ever see
Where's it go
What's the sequel
Riding on salat
Ohhh
Ima lose my mind
Cuz I
I was born with a heart
Holdin seeds
To be reaped
As I lead
With the love
Came before me
But my mind playing tricks
Is this it
Reach the tip
Of the edge
And there I saw me

Say there might be two of us
In this life make one of us
They can't test or play with us
Never saw this reign for us
Let Go
Make it roar don't afraid of us
Open up your hear and play widdus
Let Go
This the path you chose for us
You can never ever lose your light with us
Let Go

Doo doo doo
Doo doo doo
Doo doo doo
Doo doo doo
Doo doo doo
Doo doo doo
Doo doo doo

Wake up is this bliss or is this heavy
I can't be no middle man it's all or nothing baby
More I try to balance it the more I might go crazy
Guess I need to move through mud but I'm hazy
Hesitant but really where the fuck its gonna get me
Absolutely no clue BUT I am ready
Imma strip the old news off cuz its heavy
Middle finger or twos up from my belly
And if i aim to hit and miss dont worry I'll be backer
Walk up in your spot widda a bigger blacker swagga
Attitude on loving but dont play my heart be ready
Alewya keep it cool Alewya keep it steady
And if I dared to love me deeper through all of this story

Everything in life won't miss me if it really for me
This what EYE feel - im flying + falling
I feel alive energized in my calling

Say there might be two of us
In this life make one of us
They can't test or play with us
Never saw this reign for us
Let Go
Make it roar don't afraid of us
Open up your hear and play widdus
Let Go
This the path you chose for us
You can never ever lose your light with us
Let Go
