

# Alex Clare, Up All Night

Wakin' up in someone else's bed,  
Was what I was waitin' for  
Oh my days what have I done,  
She saw me sneaking out the door  
What have I been waiting for,  
Been wasting all my time  
Watchin' my youth slip away  
Surely is a crime

And no, she don't know what we do in our spare time  
No she don't know that we've been up all night  
All night, all night, all night

We go on and on and on and on and on  
Never knowing where, never knowing where  
We gonna, we gonna, we gonna end up in the morning  
/2x

Sun is up while I'm walkin' home,  
But my heads up in the clouds  
Trying to get my self to bed  
But I really don't know how,

And no, she don't know what I do in our spare time  
No she don't know that we've been up all night  
All night, all night, all night

We go on and on and on and on and on  
Never knowing where, never knowing where  
We gonna, we gonna, we gonna end up in the morning  
/2x

When I get myself home to my bedroom,  
I'm gonna sleep all day till the sunsets  
/x4

We go on and on and on and on and on  
Never knowing where, never knowing where  
We gonna, we gonna, we gonna end up in the morning  
/2x
