

# Alex Lloyd, What A Year

Chromatic i stand on the side of the road  
Watching for a car a truck so i can go  
I've got to get myself out of this nothing place  
I've been running around with a tied shoe lace

What a year it has been  
What a year it has been  
Lost my love, shed my skin  
What a year it has been

There's a cheer leader squad on the side of the road  
Cheering the night now for somewhere to go  
There's me on the corner, the corner is home  
Look at the controller we're about to hit a new zone

What a year it has been  
What a year it has been  
Lost my love, shed my skin  
What a year it has been

Flashing lights from up above  
So close, too close was crazy love  
So gather up your broken brow  
Millions together will do it somehow

What a year it has been  
What a year it has been  
And as it creeps upon the end  
What a year it has been

I'm alright
