

Alex Megane, Think Of You

No left tonight
I have come to you in my dreams
Imagination running wild
Until I get to the end
Thats what we got
Weve got it good
I think of you
The way you want me to
I long for you
Until the night is through
I imagine you next to me
Hidding out to extacy
I can feel your breath, its burning
Your burning fire
I think of you
I think of you
I think of you
I think of you
Staring at the shadow
It reminds me of you
Youre the only on my mind
As you love me too
Dont let me down
Youve got all the looks I need
Imagination running wild
As I begin again
Thats what we got
Weve got it good
