

Alex Spore, Beautiful Girls

Why did you have to lie?
Why did you make me cry?
I wish i never knew this guitar,
It only led me to girls like you.
I wish i never knew this life,
It only led me to you.

I asked you to stay,
You say no,
Your reason is,
Your other boyfriend,
Is at your house,
Waiting for you to come home.

I cared before i figured out,
I loved you much more than you liked me,
At least that's what i see.
I hope you see what you've given up cause,
I loved you but you never treated me well,
And i'm sorry.
Sing it back say, sorry.

Wait a minuet,
No i'm not,
I'm tired,
Of askin you for forgiveness.
It's time for you to say,
Sorry to me,
For leaving me here without you.

The most beautiful girls they break my heart,
So i should have seen it coming.
And i still love you but you don't like me cause i'm
Not cool enough, don't hold your hand right and i'm kilngy.
You only dated me cause i play this guitar.

I hope you liked that love song i wrote to you.
It'll be the last one you hear from me to you.
From me to you.

I asked you to stay,
You say no,
Your reason is,
Your other boyfriend,
Is at your house,
Waiting for you to come home.
