Tell Me

Whenever I get lonely  
I have a vision of you  
You made me feel so warm and cozy  
I don't know what to do  
So I call you every morning  
Just to hear you when you wake up  
And hope that we together be  
For all eternity

Let me take you somewhere  
Far from all your troubles  
So I can hug you kiss you comfort you  
And hold you through night  
We can start a new beginning  
One that never has an ending  
Just the two  
Me and you  
Forever in a life

Baby tell me  
What I have to do to keep you in my life  
I'll do it all for you

Baby tell me  
What's a man to do when loving you feels right  
Tell me what we're gonna do tonight

Lately I've been feeling  
A sadness deep inside me  
But when I hold your body next to me  
The pain just goes away  
Cause the love we share between us  
Is the key to all our happiness  
Without a flaw, Spring or fall  
I'll love you through its all

Baby tell me  
What I have to do to keep you in my life  
I'll do it all for you

Baby tell me  
What's a man to do when loving you feels right  
Tell me what we're gonna do tonight

When I'm feeling cold and lonely  
And you're feeling quite the same  
Girl I wanna hold you close to my heart  
Nothing can tear us apart  
Cause I'll be with you right there from the start

Baby tell me  
What I have to do to keep you in my life  
I'll do it all for you

Baby tell me  
What's a man to do when loving you feels right  
Tell me what we're gonna do tonight
