

Alexander, Love At First Sight

Fallin' in love is not an easy thing with you
Whispering words looking for answers
Thoughts of dying memories
Are written on my soul
Can't you tell me
I'll be the one for you
Girl lets make it true for you and me
Whereever you may go
I'll be your shining star
When I look into your eyes
Then I feel love at first sight
When I see your little smile
I can let it go by
When I look into your soul
I just cannot let go
What can I do it's love at first sight
Lay your hand on my heart
Just feel inside
Been touched by emotions
I've tried hard to hide
Is there any way that
I can feel your tenderness
Tender as our hearts
They beating both the same
Without you lonely seconds
It never seem to end
I hope whereever you go
I'll be your shining star
When I look into your eyes
Then I feel love at first sight
When I see your little smile
I can let it go by
When I look into your soul
I just cannot let go
What can I do it's love at first sight
Feel like I can hear the music of angels
Feel like I can play sweet music of love
Take me by the hand and lead me to heaven
We can spread our wings and fly away
When I look into your eyes
Then I feel love at first sight
When I see your little smile
I can let it go by
When I look into your soul
I just cannot let go
What can I do it's love at first sight
When I look into your eyes,
Then I feel love at first sight
When I see your little smile, oh no no
When I look into your eyes,
Then I feel love at first sight
When I see your little smile,
What can I do it's love at first sigh
