

Alexander Rybak, That's How You Write A Song

if you got a minute
get down your idea
it might do wonders
maybe disappear
who knows
just get it down
and nothing can go wrong
go find your rhythm
that's how you write a song!

enjoy the small things
with time they will get big
gotta find your mission
a mission to pursue
you know you got talent
whatever it may be
so work your magic
and sing along with me

Step one: Believe in t!
and sing it all day long
Step two: just roll with it!
that's how you write a song!
