

Alexandra Stan, Dance

Love all over the world
Makin' love all over the world
Love all over the world
Makin' love all over the world

In my dreams you're falling, you're falling, you're falling down
I'm breaking, I'm breaking your rules
I really believe you can try and change your ways
Coz by the time you'll know I'm gonna take your hand
Won't let you go
We'll lose our mind, we'll lose our mind

Why don't you dance dance dance
And with your very friends let's start a new romance
Why don't you dance dance dance
And with your very friends let's start a new romance
Why don't you dance dance dance dance dance dance

Love all over the world
Makin' love all over the world

This feels lost thinking there's nothing to bring you up
I'll show you, I'll show we're no fools
I'll make you believe you can turn your life around
Coz by the time you'll know I'm gonna take your hand
Won't let you go,
We'll lose our mind, we'll lose our mind

Why don't you dance dance dance
And fall in love with friends, let's start a new romance
