

# Alexia, Me And You

one day you came and made me blue  
nobody close to me just you  
you have the power in your eyes  
me and you  
today you left me far behind  
how could I live without you tell me now  
forever waiting for your love

me and you  
lalalalalala  
lalalalalala  
lalalalalala  
lalalalalala

you got the sun let it shine on me  
can't get away don't forget my tears  
this is the way I feel good  
give me a reason to come back to you  
fire's still burning inside of me  
feels so long with my shattered dream  
I try so hard stronger than free  
why don't you want to recall what could be

chorus

lost and afraid you're a light for me  
open my heart wash away my fears  
if I'm scared you'll take me to  
a brighter place where I can run to you  
if you could only believe in me  
there's nothing else to do can't you see  
if you feel the way I live for two  
we could be in heaven and our dream will come true

chorus

one day you came and made me blue  
nobody close to me just you  
you have the power in your eyes  
me and you  
today you left me far behind  
how could I live without you tell me now  
forever waiting for your love

me and you  
uh baby baby it has to be love spinning me round and round

chorus
