

# Alexis Jordan, High Road

I'll never up to place, up to place  
Where I can turn around and walk away, walk away  
Coz in my mind I wanna slap your face, slap your face  
But I know if I don't wanna go and catch a case, catch a case  
Just can't go round thinking  
You can do what you wanna do but ain't like that  
I'm coming up to you  
You see that this ache your body taking you down  
Coz you ain't nobody  
I'm in a ? believe that  
So sick and tired of you  
My emotions are in control  
I'm taking the high road

## CHORUS:

Oh I wanna walk in the club with my high heels on  
Oh I wanna say "shut up" ? be wrong wrong  
Oh I really bet to make a scene  
I'ma put on a show  
I really don't act this way  
I'm taking the high road, road, road x2

I told you one more time, one more time  
But you must have thought I was a ?  
No wanna fight you coz you let me believe, me believe yeah  
That you have your hot so right up in me, up in me

Just can't go round thinking  
You can do what you wanna do but ain't like that  
I'm coming up to you  
You see that this ache your body taking you down  
Coz you ain't nobody  
I'm in a ? believe that  
So sick and tired of you  
My emotions are in control  
I'm taking the high road

## CHORUS:

Oh I wanna walk in the club with my high heels on  
Oh I wanna say "shut up" ? be wrong wrong  
Oh I really bet to make a scene  
I'ma put on a show  
I really don't act this way  
I'm taking the high road, road, road x2

You saw my love from me  
And just let it go and now up hiding  
But you want to dead no more  
I'm here to teach you  
I'm nothing without you boo  
So you won't forget no more oh

## CHORUS:

Oh I wanna walk in the club with my high heels on  
Oh I wanna say "shut up" ? be wrong wrong  
Oh I really bet to make a scene  
I'ma put on a show  
I really don't act this way  
I'm taking the high road, road, road x2
