

Alexis Schuster, Dream

last night you came to me in a dream
couldn't believe you were right before my eyes
it was hard to see you, the light was at your back
and the memories came back again

i woke up blushing and embarrassed
i remembered you touch and manner
i tried to forget too many damn times
and it all came back stronger

CHORUS:

the way you said it
what you said
how your timing was so wrong
the way you said it
what you said
why you're gone

tried to think of a reason why
this would happen now and I
try to sleep but you keep coming back
I thought I was alone

CHORUS

I can't be alone with my thoughts too many times a day
Or I cannot escape
I don't dream at night, but when I do it's about you
And I don't know what to say

CHORUS
