

# Alexz Johnson, Hurricane Girl

## HURRICANE GIRL

1. All I need, all I know

Baby please, no I wont let go

Moving on, it's not the same

All mixed up and it's that I blame

Oh I came that way, oh I came that way

Oh I came that way, oh I came that way

CHORUS: People talking like they dont even know where they're walking

Hurricane girl

About to explode

Pieces missing, like they dont even know how to listen

Hurricane girl, hurricane girl

About to explode

2. Show me love, show you love

It's like a trick, we have to rise above

Let me face you in the eyes

Let you know that when I did, I die

Oh we came that way, oh we came that way

Oh we came that way, oh we came that way

CHORUS: People talking like they dont even know where they're walking

Hurricane girl

About to explode

Pieces missing, like they dont even know how to listen

Hurricane girl, hurricane girl

About to explode

She's about to explode

3. All I need, all I know

Baby please, no I wont let go

Moving on, it's not the same

all mixed up and it's that I blame

CHORUS: People talking like they dont even know where they're walking

Hurricane girl

About to explode

Pieces missing, like they dont even know how to listen

Hurricane girl, hurricane girl

About to explode

She's about to explode.
