

# Alexz Johnson, Just The Beginning

Chase that dream down the highway  
Don't care where  
It's going my way  
Sky on top, rain behind me  
There's no looking back

I want you to need me  
Like I need you  
Never thought I'd find something so pure

We thought we'd be somewhere else  
We started a long time ago  
We thought we'd be anywhere else  
Don't think that it's over  
I know that the world belongs to us  
And it's just the beginning

My heart races a mile a minute  
'Til the days get lost then you're in it  
Hold my hand  
Let's just...  
See what lies ahead

You are the mirror  
I see myself in  
Never though I'd find so much within

We thought we'd be somewhere else  
We started a long time ago  
We thought we'd be anywhere else  
Don't think that it's over  
I know that the world belongs to us  
And it's just the beginning

You are the mirror  
I see myself in  
Never though I'd find so much within

We thought we'd be somewhere else  
We started a long time ago  
We thought we'd be anywhere else

We thought we'd be somewhere else  
We started a long time ago  
We thought we'd be anywhere else  
Don't think that it's over  
I know that the world belongs to us  
And it's just the beginning

We thought we'd be somewhere else  
We started a long time ago  
We thought we'd be anywhere else  
Don't think that it's over  
I know that the world belongs to us  
And it's just the beginning

Oh!

Just the beginning

Ohhh!

Just the beginning
