

# Alexz Johnson, Push Me Pull You

I don't wanna lecture.  
I've had enough.  
You think you're so tight,  
you think you're so tough.  
You wanna change my world,  
say that you know best.  
Better look in the mirror,  
take another guess.  
Your nuclear reaction,  
minor distraction.  
Your positive is negative,  
there's no attraction.  
Push me, pull you.  
I can see right through you.  
Get over it.  
Mover, shaker.  
Learn to be giver, not a taker.  
Think you're tall as a building,  
you're just a little stump.  
Think you move like an earthquake,  
but you're just a bump.  
You wanna change my world,  
say that you know best.  
Better look in the mirror,  
take another guess.  
Your nuclear reaction,  
minor distraction.  
Your positive is negative.  
There's no attraction.  
Push me, pull you.  
I can see right through you.  
Get over it.  
Mover, shaker.  
Learn to be a giver, not a taker.
