Getting Closer

When it comes down to me and you
theres no demand to what we do
met no one like you its been a while
when I say its been a while this you best believe it child,
I talk to you like you were my best friend.
I love the fact that you're talking too
cuz I damn near gave my heart to you
those things that make us frown make us smile
so lay your head and rest
be happy cuz you've got the best
every...day we get closer it's true.

chorus-
I can feel us getting closer
and boy you know I want you
I can feel us getting closer
Don't know what I would do without you

I love it when you're here with me
my days with you are so sweet
you clear up all the things thats on my mind
you know all the right things to do
somehow they get me in the mood
your smile seems to take control of me
God knows what I would do for you
and what I feel no lie is true
I see the future baby
it's me and you

chorus 2x

Kel Spencer:

This whole friendship thing is cool
but lets take it past that
give Kel Spencer the rap cat
that's a class act
we've been friends for a while
but you're style and your smile
makes me want to take it that extra mile
we can hold hands in the rain or chill in the shade
le me know something, cuz I know you feeling the same
real cool friendship we kept it up now it's time to step it up
change in plans do it nice and smooth
we both invisioned it right?
Now instead of kissing the sky start kissing this guy
Ay yo! it's real for you
what I feel for you
and I'm gonna make it real ill for you
patinum voice, gold dig, complexion
draws my fellings in your direction
I know you're away at school, me too
abscense makes the heart grow founder so it's cool.
