Alice Cooper, I Am The Future (Single Version) F

When does a dream become a nightmare? When do we do what must be done? When do we stand and face the future? When there is nowhere left to run? And you've got to learn just how to survive You've got to learn how to keep your dream alive Take a look at my face, I am the future How do you like what you see? Take a look at my face, I belong to the future And you belong to me When does a dream become a nightmare? When do we learn to live with fear? When we cry out for some salvation Why is it no one seems to hear? You've got to learn, it's up to you If you can learn that the dream just might come true Take a look at my face, I am the future How do you like what you see? Take a look at my face, I belong to the future The world belongs to me, yeah Take a look at my face I am the future Now, how do you like what you see? Take a look at my face I belong to the future And the world it belongs to me, it belongs to me It's all mine, just take a look at my face I'm the future, no disgrace Take a look at my face This world belongs to, to me
