

Alice Cooper, Is It My Body

What have I got that makes you want to love me.
Is it my body or someone I might be, or somethin' inside me
You better tell me. Tell me It's really up to you.
Have you got the time to find out. Who I really am.
What does it take to get inside of your mind.
Give me a break and take a chance for the very first time.

You better tell me. Tell me.
It's really up to you.
Have you got the time to find out.
Who I really am. What have I got.
That makes you want to love me.
Now is it my body or someone I might be or somethin' in side me.

You better tell me. Tell me.
It's really up to you.
Have you got the time to find out. Who I really am.
