Alice Cooper, Is It My Body

What have I got that makes you want to love me. Is it my body or someone I might be, or somethin' inside me You better tell me. Tell me It's really up to you. Have you got the time to find out. Who I really am. What does it take to get inside of your mind. Give me a break and take a chance for the very first time.

You better tell me. Tell me. It's really up to you. Have you got the time to find out. Who I really am. What have I got. That makes you want to love me. Now is it my body or someone I might be or somethin' in side me.

You better tell me. Tell me. It's really up to you. Have you got the time to find out. Who I really am.
