

Alice Cooper, Painting A Picture (Live At The Tor

Ahh

We've been so caught up in the subject first again

Playing and laughing and slaving and begging our friend

Who lies and to try to cut off our heads like we were

Painting our picture to show everyone in the world show them

Killing is natural the legs and faces can break

We're not superiors hiding behind the gray paint

Who lies and to try to cut off our heads like we were

Painting our picture to show everyone in the world

Ahh, ahh, ahh, ahh

Woo, woo, woo, woo, woo, woo
