

Alice Cooper, Painting A Picture (Live At The Toronto Rock And Roll Festival, 1969)

Ahh

We've been so caught up in the subject first again
Playing and laughing and slaving and begging our friend
Who lies and to try to cut off our heads like we were
Painting our picture to show everyone in the world show them
Killing is natural the legs and faces can break
We're not superiors hiding behind the gray paint
Who lies and to try to cut off our heads like we were
Painting our picture to show everyone in the world
Ahh, ahh, ahh, ahh
Woo, woo, woo, woo, woo, woo
