

# Alice Cooper, This Maniac's In Love With You

I used to be so in control  
But reality is losing its hold  
Now I don't know where to begin  
Just look at the state that I'm in  
My mind is in total decay  
I'm coming to take you away  
There's nothing more that I can do  
This maniac's in love with you  
Your biggest fear has just come true  
This maniac's in love with you  
This maniac's in love with you  
This maniac, this maniac  
My heart has been strapped in a straight jacket love  
The therapy boys say it fits like glove  
I'm crossing the line in my brain  
The line between pleasure and pain  
It takes all I've got to survive  
This madness will eat me alive  
There's nothing more that I can do  
This maniac's in love with you  
Your biggest fear has just come true  
There's nothing more that I can do  
This maniac's in love with you  
There's nothing more that I can do  
This maniac's in love with you  
I'm all locked up inside of you  
This maniac, this maniac  
I just don't know where to begin  
Just look at the state that I'm in  
My mind is total decay  
I'm coming to take you away  
There's nothing more that you can do  
This maniac's in love with you  
Your biggest fear has just come true  
This maniac's in love with you  
There's nothing more that you can do  
This maniac's in love with you  
Your biggest fear has just come true  
This maniac, this maniac
