I was afraid i kept my feelings inside
We shared our love and the thing
But in the end you took a ride
You didnt come back to me i shut my tears along
It crushed my heart cause you are never coming home

Emotions swept away to nothing at all
Those were the days that i was loosing control
You got me burning it will never get the same
You just let me standing in the rain.

Ive got to get away
Ive got to move away

Ive got to get away
Ive got to move away

Ive got to get away
Ive got to move away

Ive got to get away
Ive got to move away

Ive got to get away
Ive got to move away

Emotions swept away
Im loosing control
Youve got me burning up
Ive got to let you go

Emotions swept away
Im loosing control
Youve got me burning up
Ive got to let you go
