

# Alice Peacock, If You Could Only See Your Eyes

This is simple This is basic  
There's no need to complicate it  
You're beautiful and I love you  
And if I live for 1000s  
Here's a moment I'll remember  
Just watching you in this crowded room  
If you could only see your eyes  
You'd be amazed just how you shine  
How you shine  
This is perfect This is easy  
This is falling more than deeply  
More than true - it's all for you  
[Chorus]  
No one else can see through me  
And see the heart that your heart sees  
This is perfect This is basic  
Words would only complicate it  
You're beautiful and I love you  
So beautiful and I love you
