Alice Peacock, Someobdy For You

You always give yourself so freely And never ask for anything in return Yeah you make loving you so easy And make it so hard to know when you hurt For everyone around you There's not one thing you wouldn't do I want to be that somebody for you [Chorus:] When the rain starts fallin' On your parade And when you have to say a prayer Just to get through another day When there's no one there beside you To wipe those tears from your face Or to pull you through I want to be I want to be that somebody for you Your faith and innocence renew me Yeah you give me strength and peace of mind No I can't hide you see right through me You won't let me leave my dreams behind You've always been the sun a shinin' In my sky of blue I want to be that somebody for you [Chorus:] When the rain starts fallin' On your parade And when you have to say a prayer Just to get through another day When there's no one there beside you To wipe those tears from your face Or to pull you through I want to be I want to be that somebody for you For everyone around you There's not a thing I wouldn't do You'll always be te sun a shinin' In a sky of blue When there's no one there beside you To wipe the tears from your face And pull you through I want to be

I want to be that somebody for you
