

Alice Peacock, The Beginning

The Beginning

Verse 1

Step out with me into the great unknown
The world's at our feet, let's make it our home
I'm looking at you with the stars up above
It must be true; we're falling in love

Chorus

Look at us now it took so long to find out
This is the beginning...of our new life
Baby keep holding on
It's time to start living and open our eyes
Open our eyes

Verse 2

Sometimes it seems to too good to be true
Feels like a dream just being with you
'cause' I never thought that I'd get enough
But I'm satisfied and filled with your love

Chorus

Look at us now us took so long to find out
This is the beginning...of our new life
Baby keep holding on
It's time to start living and open our eyes
Open our eyes

Bridge

I'd swim the oceans, yeah all 7 seas
Just to show you the scope of what you mean to me
I would shout it out loud
In the midst of a crowd
You're everything to me now

Chorus

This is the beginning...of our new life
Baby keep holding on
It's time to start living and open our eyes
Open our eyes

(repeat)
