

Alice Ripley, Make Up Your Mind/Catch Me I'm Falling

Make up your mind this is clarity
Clarity that you did not have before
The treatment is strong but last only so long
It maybe your mind's needing more
Make up your mind that you'll try again
Make up your mind there are moments of light
But one thing that's sure is that there is no cure
But that doesn't mean we don't fight
Catch me I'm falling
Sinking and sprawling
Maybe I'll let myself fall
Watch me I'm falling
Maybe the falling isn't so bad after all
(Make up your mind to be free)
Isn't so bad after all
(Make up your mind to be free)

Watch me I'm falling
(Make up your mind)
Watch me I'm flying
(Make up your mind)
Somehow surviving
(Make up)
Stay with me, try again
Don't walk out on treatment
Don't lose what you've won
We've struggled for years but we've only began
Stay with me, try again
Is medicine magic? You know it's not
We know it's not perfect but it's what we've got
It's all that we've got
