

Alicja Szemplińska, Stick Together

I never feel like locked up in a cellar
I never get like a black out, it's clearer
When I'm with ya'
When I'm with ya'

I never get like locked up in the line-up
Right on the spot, I am there, I'm a fighter
When I'm with ya'
When I'm with ya'

I feel your superpower
Coming through
And now I know exactly what to do
I need no armour when my armour's you
I know what to do

I can go up against anyone
Anywhere, anytime
When you're on my side

And I feel like I'm invincible
When it is you and I
When you're on my side
When I'm with ya'

I never get like cut off in the middle
You hear me out when tears flow like a river
When I'm with ya'
When I'm with ya'

I never feel like too much or too little
Right on the spot, I'll take what you're giving
When I'm with ya'
When I'm with ya'

I feel your superpower coming through
And now I know exactly what to do
I need no armour when my armour's you
I know what to do

I can go up against anyone
Anywhere, anytime
When you're on my side

And I feel like I'm invincible
When it is you and I
When you're on my side

Too good together to lose
We stick together like glue
And I feel better with you

Too good together to lose
We stick together like glue
And I feel better with you
With you
With you

Too good together to lose
We stick together like glue
And I feel better with you
With you

I can go up against anyone

Anywhere, anytime
When you're on my side

And I feel like I'm invincible
When it is you and I
When you're on my side
Yeah
