## Alien Ant Farm, Sleepwalker

This repercussion's messing with your ghost I feel you through the air now Wish I could tell you that I miss you most I miss you most, all the time now

[CHORUS]
Sleepwalker miss you much I can almost feel your touch It's killing me
And I want it
Sleepwalker miss you most I can almost see your ghost Scaring me and I'm haunted

You left me nothing but a broken soul An empty hole, memories bleeding And all our friends they say to let you go But they don't know You're still breathing

[2nd CHORUS]
Dead or awake, you said you'd always be
Right with me
Asleep or alive you swore you'd never leave
But I can see you

[2nd CHORUS]

And all our friends they say to let you go But they don't know You're still breathing...
