

# Alien Ant Farm, Ss Recognize

I'm back to your game  
Impacting for rain  
And to the flow when  
I think the vessel bent

Now time is precious  
Rocky waves we're nauseous  
Knocking... Everything is wet!  
From us the ocean will be fed

What made us try  
To have done what we do  
Let's dream of dry  
Then I'll tremble in the night sky full-tide

Don't you recognize, I'll rock the boat again  
I'm getting scurvy, bad  
Don't you recognize, I'll rock the boat again  
I'm getting scurvy, bad

Now it's been days  
And the sun won't show its face  
To blame mistakes on me  
Now the cold becomes obscene

Will you just spend  
Think I'm saving my life again  
This ship has made me cry  
I think the next we should fly sky fuel side

Don't you recognize? I'll rock the boat again  
I'm getting scurvy, bad!  
Don't you recognize? I'll rock the boat again  
I'm getting scurvy, bad!

Will bring up all the sharks  
Cause all the whales have got my suit  
You failed to recognize all the things we do  
Check yourself, the boat's just about to sink  
Your gonna choke on the salt if you dry to drink

Will bring up all the sharks  
Cause all the whales have got my suit  
You failed to recognize all the things we do  
Check yourself, the boat's just about to sink  
Cause we don't need you bitch  
You think you are the missed link

All the prison in the world couldn't make you  
All the rescue that I see don't bring you  
Stand up or sit back and walk the plank  
Hit the deck and recall [2X]

All the prison in the world couldn't make you [3X]

Jump, Jump, Jump

Sit back and walk the plank  
Hit the deck and recall all you used to take  
All the things that don't work  
Hit the deck and recall  
Don't you recognize? I'll rock the boat again  
I'm getting scurvy, bad!  
Don't you recognize? I'll rock the boat again

I'm getting scurvy, bad!

Don't you? [4X]
