

# Alisha's Attic, Intense

Intense

Put your socks on and pull 'em up  
We got a long ride, and a velvet chair to sit on  
E-mail junkies press your buttons now  
The rocket fuel will last us till we push the boat out  
And everybody wants to know  
Is what we're given what we get  
I guess the answer is we don't know yet

Intense

(I know you're feelin' it  
but what's it comin' to when we wanna  
get a rocket ship outta here?)

Intense

(I know you're feelin' it  
but what's it comin' to when we wanna  
get a rocket ship outta here?)

I just got to tell you  
Yell it to ya girls and boys  
We're gettin' hotter  
You feel it too?  
Gotcha!

Intense

Put your smile on and keep it sweet  
You got your ammunition on your back but you can't use it  
Are you a good soul or a bad egg?  
And is our future wounded by philosophies our daddy had?  
And everybody wants to see  
What the mirror cannot see  
Or is it something that we just can't see yet?

Intense

I know you're feelin' it  
But what's it comin' to when we wanna  
Get a rocket ship outta here?

Intense

I know you're feelin' it  
But what's it comin' to when we wanna  
Get a rocket ship outta here?

I just got to tell you  
Yell it to ya girls and boys  
We're gettin' hotter  
Gotcha!

Intense

Days go by and by  
Like your blood is running through you  
Sometimes we sit and watch the world cry  
Sunny starts the day  
And rain it ends  
But still they pass us by  
Like stress has got its hold on you  
You never sit back,  
Realise you're so

Intense

(I know you're feelin' it  
but what's it comin' to when we wanna  
get a rocket ship outta here?)
