

# Alison Krauss, I'm Gone

When you came to me  
You said love could not erase  
The ever present memory of another face

I tried to make you love me  
How I could I be so blind  
To think I'd be the one to change your mind

And if I'm gone before you start  
Well you can find me in your heart  
Who can say if its right wrong  
I've waited for you too long  
And if I can't hold on  
I'm Gone

When you came to me  
I said love will find a way  
For every heart that leaves another heart must stay

I guess you couldn't see  
As the shadow's in the night  
It seems the time for us just wasn't right

And if I'm gone before you start  
Well you can find me in your heart  
Who can say if its right wrong  
I've waited for you too long  
And if I can't hold on  
I'm Gone
