

# Alison Krauss & Union Station, Forget About It

Forget about it  
I'm admittin' I was wrong  
And I'll just take what's mine  
And walk right out the door  
Forget about it  
I'll split and I'll be gone  
And you'll have memories  
You'll find hard to ignore  
'Cause after all  
I see you sometime  
Maybe when I will recall  
How you drove me crazier  
Forget about it  
When forever's over  
I won't remember how much  
I loved you anymore  
Forget about it  
Put me out of your head  
Now that you're free and easy  
Out there on the town  
Forget about it  
When you're lying in bed  
Just wishing I was there  
To lay you down  
'Cause after all  
I see you sometime maybe  
When you will recall  
How I drove you crazier  
Forget about those starlit nights  
Laying by the fireside holding you tight  
I can't remember when I felt so right  
So just forget about it  
Forget about it  
When you see me on the street  
Don't wink, don't wave  
Don't try to tease me with your smile  
Forget about it  
If we chance to meet somewhere  
Don't think it's 'cause  
I'm trying to reconcile  
'Cause after all  
I see you sometime maybe  
When I will recall  
How you drove me crazier  
Forget about those starlit nights  
Laying by the fireside holding you tight  
I can't remember when I felt so right  
So just forget about it
