Alison Krauss & Union Station, I Don't Have to Liv

I've been up and down before Sleep won't hold me any more You're running out of games to play I don't have to live this way Thought I loved you for awhile You were loaded up on style Talk is cheap but I won't play I don't have to live this way No, I won't play The games that you've designed And I won't wait To listen to your lines Before you speak another word I'll repeat it so I'm heard You're running out of games to play I don't have to live this way You won't stay another night Or did you wrong another right? Now, I've got the eyes to see You get your kicks by hurting me No, I won't play The games that you've designed And I won't wait To listen to your lines Before you speak another word I'll repeat it so I'm heard You're running out of games to play I don't have to live this way
