

Alison Krauss & Union Station, New Favorite

New favorite
They all say it
I'll say it too
You've got a new favorite
You're old standby
Your right hand guy
Is nothin' new
You've got a new favorite
Why do you lie about love?
I saw the light go out
And should I go, you won't say so
I know it's true
I know you've got a new favorite
I know you've got a new favorite
You've got a new favorite
