

# Alison Moyet, Blow Wind Blow

Don't cry  
Please don't cry  
I will take you somewhere  
Where they cant hurt you  
I wont let them hurt you now  
Let them know that our love knows no shame  
And we'll do it time and time and time again  
'Till everything comes down

I'm not afraid  
I'm not afraid  
Blow wind blow  
Blow dust into their eyes and  
Make them see that they have always been blind

Touch me  
I want to wrap you in my arms and  
you'll have no reason for crying  
Blow wind blow  
Blow wind blow  
Blow dust into their eyes and help them  
realise that they have always been blind  
And I could show you something that you would never believe  
You could never conceive the joy that I could give you

Take me  
Take me  
Blow wind blow  
Blow wind blow  
Blow wind blow dust into their eyes and  
let them know that nothing that we do will ever  
Never be forgotten

Blow wind blow  
Blow  
Blow  
Blow wind blow
