

# All-4-One, Love Is More Than Just Another Four-

i wanted to talk to you - pick up the phone  
i don't want to be alone  
said i need someone to hold on tight  
get ready for this magical ride  
helplessly i'm falling so deep  
what am i supposed to do  
love's too big a word, baby to hold inside  
i tried and tried, but i just can't find the love

love is more than just another 4-letter word  
can't fight the feeling, no matter what you do  
love is more than just another 4-letter word  
if you're not careful, it's gonna get you too

today were together - tomorrow we're apart  
this how our daily life goes  
it really doesn't matter, baby, what's going on  
we're still in love - everyone knows

if i need a helping hand i can count on you  
mornin' noon or evenin' time - it's always the same  
you'll always be there - i can count on you

love is more than just another 4-letter word  
can't fight the feeling no matter what you do  
love is more than just another 4-letter word  
if you're not careful, it's gonna get you too

love is more than just another 4-letter word  
can't fight the feeling no matter what you do  
love is more than just another 4-letter word  
if you're not careful, it's gonna get you too
