All About Eve, Ascent/Descent

I've got a head for heights now I can see the sights now And I want it right now And how.....

But it's the wrong way round And it's a long way down To the ground But it's the wrong way round

Backs to the wall now You say I'll fall now 'Cause I want it all now And how.....

But it's the wrong way round And it's a long way down To the ground But it's the wrong way round
