All Access, This Kiss

I can't believe we've made it this far
But I thank God we did
This has always been such a distant star
Until now
It took us three years to get here
Now we'll find out what's in store
But this is only the beginning
One special night, one special ring
This kiss, is where it all begins
Vows forever our love grows closer
I thank God we waited
Always together we're never apart
Tonight is glorious bab here"
