The Cigarette Song

I don't miss giving up on you,

And there's no more time.

Forgive me one more time.

Cause I don't want you

Away.

Just bury me I am

Away

Whispered warning

Away

Just bury me I am

Away

And not a day has passed,

That I'm regretting.

The windows closed,

And she's not letting me in.

One place, one place slipped away and

Missed call, missed calls

I can't stay too late

She's gone

I will miss her voice, her eyes,
and love's first kiss.

I can't remind you all the time

Bring it back, bring it back

To where we were before

I can't remind you all the time

No, no

Bring it back, bring it back

One place, one place slipped away

Missed call, missed calls

I can't stay too late

She's gone

I will miss her voice, her eyes,
and love's first kiss.

The day is gone

The sky is blue

I know you're all alone

And the sky is blue

Come back to me

The sky is blue

The sky is blue
