Carry You

Once upon a time i thought i couldn't liv without you
fifteen years gone, i've come a long way without you
and if we ever meet again i got a piece of you my friend
i carry you with me
I see you now, we've got nothing in common
we've come a long way from Buckhorn and Top Ramen
But I remember every fight every crazy naked night
i carry you with me
i carry you with me
to every unfamiliar skyline that i see
you're there enshrined in memory
where friendship never dies
i carry ou with me
every evening every day
every moring D.O.A.
so much left unsaid
that well never get to say
'Cause high skool drop outs dont go to reunions
whats the point? im under no delusions
I wonder wherever you are today
do you carry me the way
i carry you with me?
i carry you with me
