

All Saints, Get Down

The way you're movin' your body,
Ain't showin me nothing (work that body, work that body)
Gotta loosen the tie, don't be shy
We can do this

I know this ain't a place you've been before
(excuse me, nice hat!)
Gotta take it with ease, be free,
Let your mind explore

Cos I'm tellin you something (something)
Something that's holding you back
So I'm telling you baby (baby)
Saints don't go for that!

Dont be uptight it's alright
Its an all saints party!
Let it all out, let it all out
Keep us rocking

Gonna get get down
Move your body down
Gonna get, gonna get, gonna get down!
Gonna get get down
Move your body round
Gonna get, gonna get, gonna get down!

A ha a ha hmmm, gotta get down
Beats, bass man, key to this sound

This is where it's at, what you think about that
All saints in the studio, shaz, mel, nic and nat
I'm checkin you out
Shoud your baggy jeans, let it all hang out
If you wanna know how you canget with me
Take an all saint tip from a man k gee
A ha a ha hmmm hmmm

Cos I'm tellin you something (something)
Something that's holding you back
So I'm telling you baby (baby)
Saints don't go for that!

I know this ain't a place you've been before
(excuse me, nice hat!)
Gotta take it with ease, be free,
Let your mind explore

Cos I'm tellin you something (something)
Something that's holding you back

Move your body down
