

# All Saints, On & on

On & on baby I got your back  
I sit here waiting  
Just so I can see your face  
Full of anticipation  
I just wanna call your name  
You got me scared to make a move  
You got me nervous 'cause it's new  
But I'm still waiting

[Chorus]

Even though the journey seems so far  
No matter where you are  
I wanna be close to you  
Time with you may seem so far away  
But patience has a say  
I wanna be close to you

[2nd verse:]

Nothing's complicated  
I know just how I feel for you  
And finally I found a way  
To give you all I have  
Our love can't be misunderstood, boy 'cause it's too good  
I know you read me like a book  
That's why we made it

[Chorus (x2)]

Even though the journey seems so far...

[Breakdown]

On & on baby I got your back  
On & on baby I got your back

[Chorus (x2)]

Even though the journey seems so far...
