

All Shall Perish, Spineless

Yon look for ways to get out to blame others for things you've done wrong
You point your fucking fingers, in the shape of a gun, at the first to stand tall
When did you lose your power?
When did idleness take control?
Just take your drug and go to sleep
Numbing your sense of action
Numbing the feel of sinking in
We have begun to sniff you out of the shadows you live in
The scent of fear is pungent now
It's making me sick
And so it goes on, this unbalanced human life
Afraid to take any chances
Afraid to stand up and fight
Just take your drug and go to sleep
Numbing your sense of action
Just take your drug and go to sleep
Numbing the sense of sinking in
It's sinking in
Wake up your life has become nothing
The time to dream has gone and passed away
It's time to take action, to stop living in your regret
The door is right in front of you, stand up and take the step
Get up
It's time to take action, to stop living in your regret
The door is right in front of you, stand up and take the step
